Symbiosis Institute of Technology, Nagpur Campus (SIT-N)

Introduction of Company

OVERVIEW

Maincraft Technology is an industry-focused technology organization that provides practical exposure through internship programs, technical training, and project-based learning. The organization helps students develop technical skills by working on practical development activities.

STRUCTURE

- **Management & Administration**

Planning and coordination

- **Development Team**

Technical implementation and project development

- **Training & Support Team**

Technical guidance and learning support

- **Interns & Trainees**

Practical project execution and skill development

SERVICES

- Web Development Training
- Hands-on Internship Programs
- Project-Based Learning
- Technical Assistance
- Career & Skill Development

KEY AREAS OF EXPERTISE

- **Technology Solutions** — Modern web technologies.
- **Hands-on Development** — Practical development tasks.
- **Project Innovation** — Real-world project development.
- **Industry Readiness** — Professional work exposure.
- **Technical Mentoring** — Development guidance.

Objectives of the Internship

The internship is designed to provide practical exposure, enhance technical skills, and develop professional competencies by working on real-world tasks and contributing to organizational goals.

01

Technical Knowledge

Gain a deeper understanding of relevant technologies, tools, and methodologies used in the industry.

02

Practical Application

Apply theoretical concepts learned in academics to real-time projects and practical tasks.

03

Industry Exposure

Understand industry practices, workflows, and professional standards in a real-world environment.

04

Professional Skills

Enhance communication, teamwork, problem-solving, and time-management skills while working in a professional setting.

05

Career Development

Strengthen technical competence and build confidence to prepare for future career opportunities.

Project Description

SOFTWARE SPECIFICATIONS

The project was developed using the following software tools, technologies and platforms.

FRONT-END

HTML5 – Structure and content of web pages
CSS3 – Styling and responsive design
JavaScript – Interactivity and dynamic functionality

BACK-END

Node.js – JavaScript runtime environment
Express.js – Web framework for building APIs and handling server-side logic

DATABASE & STORAGE

Browser Local Storage – Client-side storage for form submissions and user data persistence

DEVELOPMENT & TESTING TOOLS

Visual Studio Code – Code editor and development environment
Browser Developer Tools – Debugging and testing applications

TECHNOLOGY STACK OVERVIEW

Front-End
(HTML, CSS, JS)

Back-End
(Node.js, Express.js)

Database & Storage (Api,
Local Storage)

Development & Testing
(VS Code, DevTools)

Methodology

Implementation Results

1. NOIRÉ– Luxury fragrance experience

Implementation Results

2. MediLinks – Accessible healthcare platform

Implementation Results

3.CampusCrae – Campus issue management

Project Overview

NOIRÉ

Luxury fragrance experience

A premium visual-first landing page designed around brand elegance and product appeal.

MediLink

Accessible healthcare platform

A healthcare website combining information, appointments and submission functionality.

Campus Complaints

Complaint management system

A complete reporting platform with browsing, tracking and admin management.

Internship Completion Certificate

INTERN I'D: MT4008

CERTIFICATE OF INTERNSHIP

This is presented to

Salim Ansari

Has successfully completed an internship at Maincrafts Technology.

Full Stack Web Developer
20 May 2026 to 05 July 2026

During the internship, Demonstrated dedication, professionalism, and a strong commitment to learning and contributing to projects.

We are highly appreciate the valuable effortsand extend our best wishes for a successful and rewarding professional career ahead.

Internship Head

Company Name: Maincrafts Technology
MSME No. UDYAM-UP-75-0096043
Website: www.maincrafts.com
Email: info.mainflow@gmail.com

INTERNSHIP EXPERIENCE & LEARNINGS

The internship provided hands-on experience in web development and strengthened both technical and practical skills.

01

FRONT-END DEVELOPMENT

Developed web interfaces using HTML5, CSS3, and JavaScript.

02

RESPONSIVE DESIGN

Learned to create responsive and user-friendly web layouts.

03

DATA HANDLING

Implemented form validation and browser-based data persistence.

04

FULL-STACK DEVELOPMENT

Gained experience with Node.js, Express.js, and Api for building web applications.

05

PROFESSIONAL GROWTH

Improved problem-solving, debugging, project organization, and understanding of real-world development workflows.

This internship enhanced my technical skills, confidence, and understanding of the complete web development lifecycle.

Thank You.....
